

Position: Training Resource Modeling (TRM) Analyst

Location: Fort Lewis, WA

Fulltime position for immediate hire

Responsibilities: SE2S is seeking an TRM Analyst to support 1st SFG (A). Responsibilities: Contractor shall provide analyst that under minimal supervision will perform research, analysis, and data management updates as needed in support of the U.S. Army 1st Special Forces Command. Scope of duties includes integration of the commands training requirements into a resource model that supports the Planning, Programming, Budget, and Execution (PPBE) process. TRM Team will conduct functional analysis of management and training challenges and constraints, and design mathematical equations which offer viable solutions and impacts of alternative courses of action.

- Enterprise-Wide Strategic Training Methodology Framework
- Collect analyse and integrate the commands training requirements into a resource model that supports the Planning, Programming, Budget, and Execution (PPBE) process.
- Prepare functional analysis of management and training challenges and constraints, and design mathematical equations which offer viable solutions and impacts of alternative courses of action.
- Responsible for the compilation of data, and preparation of inputs into larger periodic Training Resource Reports
- Prepare cost assessments and projections as part of training analysis process.
- Develop technical reports and briefings as required.
- Provide a periodic Training Resource Analysis Report from analysis of data, system operations, methods, inputs/outputs, and activities in order to identify gaps in resources and recommend improvements along with coordinating activities to produce a more effective program.

Personnel requirements:

- TRM Analysts must have the knowledge and experience in the analysis and evaluation of programs and issues related to manpower, materiel modernization, long-term and short-term strategic planning and resourcing requirements, to include doctrine, organization, training, material, leadership & education, personnel, and facilities (DOTMLPF)
- 5+ years of experience in military unit training, military institutional (schoolhouse) training, and/or academic performance which demonstrate the aptitude to grasp and digest complex concept related to these disciplines
- At least 5 years of SOF experience under the 1st SFC structure
- Working knowledge of Program Objective Memorandum (POM) and PPBE process.
- Top Secret Clearance with Single Scope Background Investigation and SCI Eligibility, to include ACCM Caveats

- Advanced level use of Microsoft Office applications (Word, Excel, PowerPoint, Access).
- Excellent verbal and written communications for technical and security related topics.
- Ability to identify and predict difficult certification activities and plan mitigation strategies.
- Must possess a bachelor's degree or equivalent and 2 years of related experience.
- Must be a US Citizen.

Additional Comments:

SE2S offers a highly competitive package of pay and benefits including full Health & Welfare, Paid Time Off and Holidays.

Applicants selected will be subject to a government security investigation and must meet eligibility requirements for access to classified information.
